

EMPH

EXECUTIVE MPH

In the EMPH program, we'll challenge you, inspire you, and prepare you to go out in the world and make a difference. Our long list of successful alumni is proof of what a Rollins education can do, and we are always looking for the next crop of future public health visionaries to join the Rollins EMPH family. The EMPH program is more than a degree. It's a community of scholarship and one we hope you will consider joining.

Our hybrid distance-learning program, the EMPH, affords busy professionals the opportunity to receive an MPH degree online. Through this environment, the world is your classroom! We welcome applications from individuals interested in combining academic training and knowledge with a commitment to solving the world's health problems.

Melissa (Moose) Alperin, EdD, MPH, MCHES
Director, EMPH Program

Apply by the February 15 priority deadline
for scholarship consideration
