PhD PROGRAMS AT A GLANCE

Doctoral programs in the public health sciences (except for the Nutrition and Health Sciences program) are offered through Emory's Laney Graduate School. THE JAMES T. LANEY SCHOOL OF GRADUATE STUDIES is committed to graduate education that provides students with deep and broad expertise in their chosen fields, creativity to cross discipline boundaries, courage to challenge convention, and confidence to ask unexpected questions and articulate bold new perspectives.

BEHAVIORAL SCIENCES AND HEALTH EDUCATION (BSHE)

The Behavioral Sciences and Health Education PhD program is committed to applying a broad spectrum of behavioral and social science knowledge, theory and methods to promote health, prevent disease and improve quality of life.

Brandi Harper: blharpe@emory.edu

BIostatISTICS AND BIOinformatics (BIOS)

The Biostatistics PhD program is tailored to students with strong quantitative skills with a background or interest in the biological, medical, or health sciences.

Melissa Sherrer: msherre@emory.edu

ENVIRONMENTAL HEALTH SCIENCES (EH)

The Environmental Health Sciences PhD program provides students with interdisciplinary training to better understand the impact of the environment on human health and disease.

Ariadne Swichtenberg: ascarl@emory.edu

EPIDEMIOLOGY (EPI)

The Epidemiology PhD program trains students in the methods of epidemiology and the application of these methods to a broad scope of public health and medical problems.

Jena Black: jtenley@emory.edu

HEALTH SERVICES RESEARCH AND HEALTH POLICY

The Health Services Research and Health Policy PhD program trains students to evaluate current issues in health policy through social science theory and sophisticated empirical analyses.

Kent Tolleson: ktolles@emory.edu

NUTRITION AND HEALTH SCIENCES

The Nutrition and Health Sciences PhD program is focused on providing students the expertise and skills necessary to investigate relationships between human nutrition and health.

Joan Lynfatt: jalynfatt@emory.edu
