HEALTH

# PROMOTING HEALTH, PREVENTING DISEASE

Future public health leaders pursue their quest for social justice and the elimination of health disparities at the Rollins School of Public Health.

Rollins' commitment to understanding and improving health and well-being through inquiry-driven practice and ethical engagement with communities is unparalleled.

Ready for the next steps in your professional public health journey?

Rollins is here to support you.

Scan the QR code below to view our Admissions Viewbook to learn more about our programs. To download the book, you may need to create an account at [www.issu.com](http://www.issu.com).

A young woman with long dark hair, wearing a black blazer over a white shirt, is seated at a table and speaking to a group of people. She is gesturing with her hands as she talks. In the background, several other people are seated at the same table, some looking towards her. The setting appears to be a meeting or a classroom. The image is partially obscured by a dark blue diagonal overlay on the left side.

U.S. News & World Report ranks Rollins seventh among the nation's 60 accredited schools of public health.

Join us and you'll be in good company with returned Peace Corps volunteers, Gates Millennium Scholars, and fellows from internationally known programs.

Rollins' location in the "Public Health Capital of the World" means direct access to hands-on research and collaboration with the world's leading public health agencies. And we want you to go global! Every year, 60 to 70 students receive funding from the Global Field Experience (GFE) program, to travel around the world for practicum-related activities and thesis research.

Pursue your public health graduate degree in our six academic departments: Behavioral Sciences and Health Education, Biostatistics and Bioinformatics, Environmental Health, Epidemiology, Health Policy and Management, and the Hubert Department of Global Health.
