The Georgia Child Health Poll surveyed 987 Georgia parents with children under age 18 from January 27, 2025— March 4, 2025. All reported percentages have survey weights applied, so their interpretation can be broadened to all parents in Georgia. For example, "41.5% of children in Georgia are covered by Medicaid or PeachCare for Kids."

All summaries are listed as weighted proportions of Georgia Parents ± Standard of Error.
