

REMINDERS FROM ES TEAM

With midterms approaching, please keep in mind the [Academic Resource Center](#) (ARC) offers free writing and quantitative tutoring for currently enrolled MPH and MSPH degree seeking students. This time of the year, ARC tutors assist many students with topics such as: outlining papers, thematic writing, understanding BIOS & EPI concepts as well as software - probability, coding, SAS, R, descriptive statistics, and much MUCH MORE! Students can attend quantitative drop-in sessions or schedule a writing or quantitative appointment [here](#). If one of your students has any questions, please encourage them to explore our website or send an email to rspharc@emory.edu rather than contacting tutors directly.
