## COURSE PETITION

### Course Waiver and Transfer Credit

A **course waiver petition** seeks to replace a required RSPH core course with a graduate course taken at a different school within Emory University or at another university. Students are still required to take a minimum of 42 or 48 credits hours required for graduation (for the MPH and MSPH degree respectively).

A **transfer of credit petition** seeks to transfer graduate course credit from a different school within Emory University or from another university. Transfer credit must not have been previously used toward another degree or certificate. This credit will count toward the minimum of 42 or 48 credit hours required for graduation; however, transfer credit does not impact the tuition structure.

For both waiver and transfer of credit petitions, the department that owns the course upon which the petition is based makes the final determination in response to the petition.
