

## Application for Admission

### BA/BS -MSPH Program in Biostatistics

**Instructions:** This application is only for the BA/BS -MSPH program in Biostatistics. Applicants to this program must be nominated by a faculty member in the Department of Mathematics and Computer Science and must have at least a 3.2 cumulative GPA at the time of submitting your application. To continue in the Rollins School of Public Health following graduation from Emory College, students must have earned and received a “B” average in all public health coursework taken. **Applicants must attach the letter of nomination from the department, an additional letter of recommendation, one unofficial Emory transcript, and a one page statement of purpose explaining their academic interests and rationale for entering the program.**

The application is normally submitted in the spring semester of the third (junior) year no later than February 1<sup>st</sup>. Applications will be accepted later but the deadline will enable the RSPH to inform applicants of their admission status before pre-registration occurs for the following fall semester.

Students must complete the baccalaureate program prior to matriculating into the MSPH program.
