ROLLINS EARN AND LEARN (REAL) PROGRAM – End of Term Student Employee Evaluation Form

This form should supplement a conversation (phone, zoom, etc.) between the supervisor and the student. Topics to address could include the quality and timeliness of the student's deliverables, observations about the student's performance strengths as well as observations about areas where the student struggles or may need to receive further training and coaching. Discuss whether there may be an opportunity for the student to continue working with the organization in the future.
